Summary

An MBA in Finance from Chandigarh University with a knack for numbers of Projects, complemented by a diploma in Full Stack Web Development and NSE certification, I bring a dynamic blend of financial expertise and technical prowess to the table. With a passion for innovation and a commitment to excellence, I am poised to drive success in any endeavor I undertake.

Skills

Languages: JavaScript, Python, Java Basics,AI and Machine learning(currently learning)
Technologies/Frameworks:HTML, Tailwind CSS, Bootstrap CSS, React.js, Redux.js, Node.js, Express.js, MangoDB, Next.js basics
Developer Tools: VS Code, GitHub, Postman, Git, MongoDB - Compass/Atlas, Parcel, MDN with docs
Other: : Data Structures & Algorithms, OS, Problem Solving, OOPS, API Integration, Debugging, Swagger, Chat-gpt, AI tools, Figma, Adobe

Experience

JavaScript Web Developer

- I developed a dynamic and user-friendly To-Do List application using React.js, a popular JavaScript library for building user interfaces. This application allows users to create, manage, and prioritize their tasks efficiently.
- I designed and implemented Efficiently manage your online store's shopping cart with React and Redux for seamless state management and user experience.
- Experience real-time cryptocurrency data visualization with a sleek, responsive dashboard crafted using Tailwind CSS and React. Stay informed with dynamic charts and key metrics, empowering you to make informed decisions in the fast-paced world of digital assets.
- Experience real-time weather updates with our JavaScript-based weather app. Sleek CSS styling and HTML structure create an intuitive user interface. Access current conditions and forecasts for any location. Simple, responsive, and accurate, it's your go-to tool for staying informed about the weather, wherever you are.

Projects

Todo-list
• Elevate your productivity with a seamless todo list application built on React. Stay organized and focused with intuitive task management features, including add, edit, and delete functionalities. Experience a streamlined workflow and efficient task tracking to enhance your daily productivity."
Crypto-dashboard
• A responsive dashboard crafted using Tailwind CSS and React. Stay informed with dynamic charts and key metrics, empowering you to make informed decisions in the fast-paced world of digital assets.
E-commerce
I designed and implemented Efficiently manage your online store's shopping cart with React and Redux for seamless state management and user experience.

Education

- **Bachelor of Arts** from DeenDayal Upadhyaya Gorakhpur University
- **Masters In Business Administration(Finance)** from Chandigarh University
- **Full Stack Web Development** from AlmaBetter Associated With IIT-Guwahati

Certification

- Responsive Web Design by FreeCodeCamp
- Relational Database by AlmaBetter
- Design and Analysis of Algorithm by AlmaBetter
- FrontEnd Capstone Project(CryptoCurrency Dashboard) by AlmaBetter
- Intro to Large Language Model by Google
- Responsible and Generative AI by Google
- Ethical Hacking(kali linux) by Azure Skynet Associated with IIT-Hyderabad
